

Past Bio Tech Workshops

- Strawberry DNA Extraction
- Green Fluorescent Protein Transformation
- Phytoplankton
- DNA Barcoding
- Forensic Science / CSI La Jolla / Crime Scene Science
- The Scientific Method & Brownian Motion
- 3D Printing for Science
- Bio Plastics 101
- Disease Outbreak: Foodborne Illness
- Bioinformatics: Investigating Human Evolution
- Under the Sea and the 'Scope'
- Personal Genomics: A Matter of Taste
- Food Science: Experiments with Enzymes
- Exploring Bacterial Diversity
- Environmental Water Quality Testing
- Food Science: Investigating Fermentation
- Microscopic Exploration of Cells & Organs
- Exploring Coral Reef Ecosystems
- Molecular Machines at Work (Spirulina's Phycocyanin)
- Design for Genome Editing
- The Science of Cheese
- Exploring the Human Brain
