

Past Bio Tech Workshops

- Exploring Fluorescence
- The Science Behind the Headlines
- How GFP Lights Up Life
- Test Your Own Genome
- DIY Microscopy
- Identifying Species with DNA Sequencing
- Basic Informatics with Public Databases
- Exploring Artificial Colors in Food
- DIY Bioplastics
- DNA: Cracking the Code of Life
- Foundations of Genomic Technologies
- The Science of Dairy
- Hands-On Genome Editing Workshop
- Food Science: Investigating Fermentation
- Model Organisms
- Molecular Biology Basics: Amplify DNA
- Exploring Colors in Nature
- Synthetic Biology Workshop
- Bioinformatics Basics: Exploring Genomes
- Test Your Food for GMOs
- Gene Transplant
- Find Antibiotics at Home (The Illiad Project)
